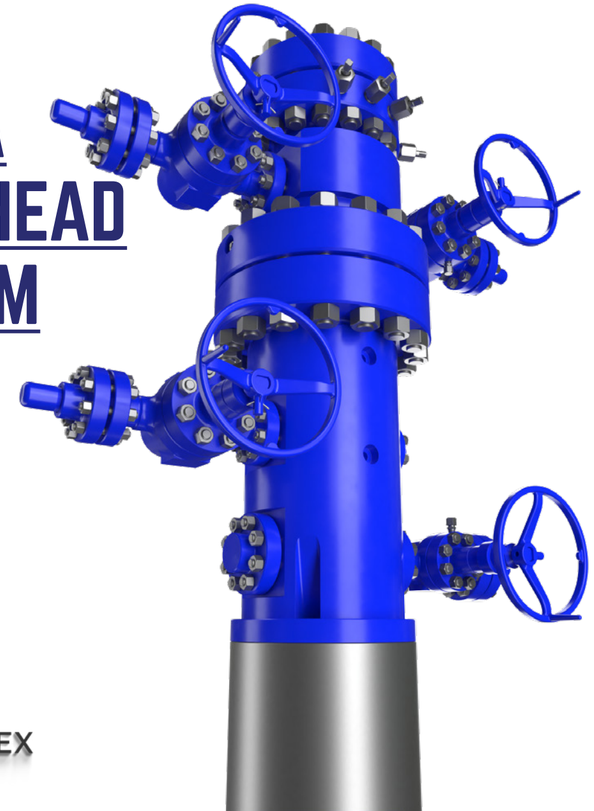
# ALPHA WELLHEAD SYSTEM



INNOVEX

Designed by a team with over 150 years of combined wellhead design and application experience, the Alpha Wellhead System utilizes an internal lock system that eliminates the leak paths of external lock screws and touts a compact, lower profile design promoting safe handling and reducing HSE exposure.

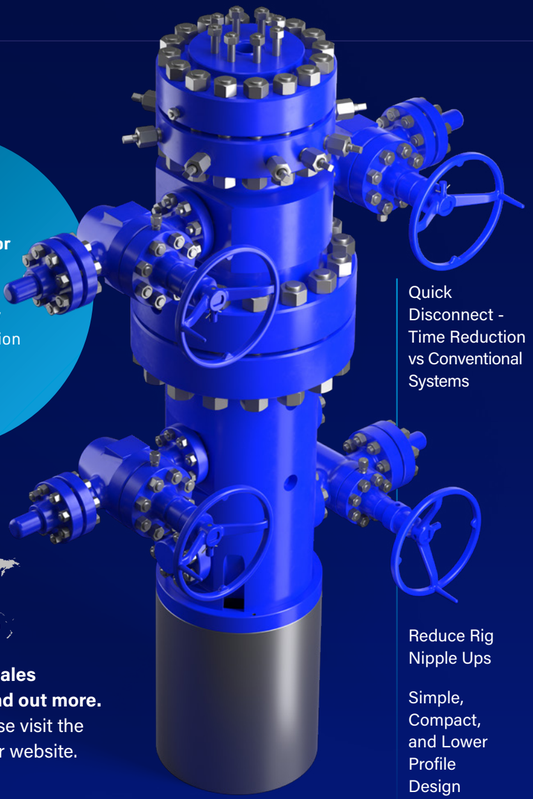
## FEATURES & BENEFITS

- Single bowl and multibowl configurations
- Internal Locking System - eliminates leak paths
- Get casing to the bottom with rotatable mandrel casing hangers
- Elevate operator safety with internal lock ring
- Back Pressure Valve that offers a barrier during fracking operations
- Innovative engineered washtool – patent pending
- Fully integrates with Innovex's comprehensive line of well solutions
- Single Packoff for primary with a contingency casing hanger resulting in fewer components during installation

| CERTIFICATIONS | Hydro and PR2 Qualified |
|---|---|

**The Alpha Wellhead System is the ideal fit for Innovex's ESP and Rod Lift solutions** allowing operators to seamlessly transition from installation to production.

**Contact your local sales representative to find out more.** For all locations please visit the locations page on our website.



Quick Disconnect - Time Reduction vs Conventional Systems

Reduce Rig Nipple Ups

Simple, Compact, and Lower Profile Design

Our in-house technical experts are ready to meet any challenge, head on, with a dynamic, collaborative approach, and an agility that sets Innovex apart from the competition.

## WHY STOP HERE?

Innovex offers you the unique opportunity to build a partnership that begins with the Wellhead and continues throughout the life of your well with multiple collaboration opportunities and seamless transitions across the drilling, construction, completion, and production phases of the well.
