

Innovex's in-house engineered **357 Magnum Valve** is an all-composite float valve developed for downhole applications where drillability and performance merge. Whether for deep-set surface, intermediate casing, or production casing, where moderate temperature and/or hydrostatic pressure performance is needed, the 357 Magnum Valve is the go-to valve.

- Full composite drillability.
- VLD Technology = class-leading durability.
- Optional autofill configuration.
- Setting the bar for intermediate and deep-set surface float equipment.

SPECIFICATIONS

Size Range: **4.500 and larger**

API 10F Classification: **D36 R10 T400 P7.5**

Max Pressure¹ @ 400°F: **7,500 psi**

Min Flow Area: **3.75 in²**

Max Flow Rate: **15 bpm for 8 hrs**

Flow Endurance: **10 bpm for 36 hrs**

¹Actual pressure ratings depend on size, thread, and grade
