

No matter the wellbore condition, the **Sharknado® Reamer Shoe** will get casing to total depth quickly and consistently. 100% axial and circumferential reaming coupled with multi-directional jetting gets you to TD faster while improving annular cleanout and cement integrity.

## FEATURES AND BENEFITS

---

Tungsten carbide hemisphere cutting structure won't damage the casing.

---

Torque-reducing counter-clockwise blades.

---

Multi-directional jetting provides superior blade and wellbore cleaning.

---

Complete axial reaming coverage for rotating through tight spots.

---

360° circumferential coverage for reaming without rotation.

---

CERAKOTE® performance ceramic coating provides exceptional wear and erosion resistance.

---

Standard with our 15 ksi gas-tight ULTRA MAG float valve (single or double).

---

Any API or premium connection available.

---

P-110 standard grade, other grades available upon request.
