

The **QCI P3X Epoxy-Less Penetrator** has a storied history of delivering an incredible 99.95% reliability rating with over 65,000 installations worldwide.

Continuing with that same focus on reliability and virtually failproof design, the new FM certified P3X product family reaches a new level of performance and efficiency. The P3X is an epoxy-less design utilizing a new, patented cable-lock system resulting in reduced installation time.

The P3X delivers a fast approach to an elastomeric seal that can withstand the rigors of well operation with varying pressures and temperatures.

Features and Customer Benefits

- No Epoxy
- Fast assembly using standard tools
- Operation pressure: 5,000 psi Max: 6,000 psi at 350°F
- Proof tested to 13,500 psi
- Voltage: 5,000 volts
- FM certified
- Fits in existing P3 profiles
- Patented cable seal design
- Patented cable lock system

Bundled Services

- Combo ESP cable and CT trailers
- ONE Call – Spooling, Wellhead and Penetrators
- Certified ESP laydown capabilities
