

The **Ranger Liner Hanger** is a heavy duty rotating hydraulic liner hanger, typically run with the Scout Liner Top Packer. The proprietary pocketed slip system is designed for high hanging capacity and provides drill-in and rotating capabilities in a wide variety of applications.

Features and Benefits

- Low-profile design for improved bypass area
- Suitable for drilling-in and reaming liners
- High hanging load and tensile capabilities
- Integral bearing provides ability to rotate while cementing
- Dovetail “pocketed” slip-and-cone design for superior hanging and overall load performance.
- Anti-preset feature in slip retainer ring prevents slips from premature activation during run-in
- Premium thread as standard

Size (inches)	Casing Weight	Maximum OD (inches)	Minimum ID (inches)
5.000 x 7.000	7.000" 26-35 PPF	5.849	4.309
5.000 x 7.000	7.000" 23-32 PPF	5.925	4.309
5.500 x 7.625	7.625" 24-33.7 PPF	6.590	4.877
7.000 x 9.625	9.625" 40-53.4 PPF	8.254	6.190
7.625 x 9.625	9.625" 36-43.5 PPF	8.549	6.823
7.625 x 9.625	9.625" 43.5-53.5 SD	8.450	6.823
